Hergo Sun Japan KK starts the construction of 1.2 MW solar PV plant in Japan

10. JANUARY 2016 | BY: INFRASTRUTTURE S.P.A.

Hergo Sun Japan KK, a subsidiary of Infrastrutture Group, selected by Mega Solar Power Committee of Chichibu Municipality, Saitama Prefecture, starts the construction of 1,2 MW solar photovoltaic plant in Japan.

"The construction started a few weeks ago, it is the first photovoltaic plant built by an Italian company in Japan. The plant will enter in to operation in March 2016 and will supply electricity to approximately 1.000 families.

More important challenges are coming. Our investment portfolio includes several projects in the short term applying different renewable technologies." - Commented Pier Francesco Rimbotti - CEO of Infrastrutture S.p.A.
